# I-Cleaner 200D Automatic Pool Cleaner

Let a robot take the hard work  
out of cleaning your pool

Cleaning your pool can be a time consuming exercise. In the commercial environment you have other more important tasks to attend to. The I-Cleaner 200 from ICH Roboter is an affordable automatic pool cleaner that offers all the features of other the more expensive models.

The I-Cleaner 200 robotic pool cleaner is designed to enhance your pool cleaning experience. Simply place the robot in the pool, turn it on and it will clean the floor and walls automatically. The self contained filter bag means there is no need to clean your filter after the vacuum cycle is complete or fiddle around with priming a vacuum hose. Simply rinse the internal filter bag and you are ready for the next clean.

Ideal and affordable for commercial use in pools up to 25m in length.

### Complete cleaning solution with unbeatable value!

Specifically designed for a commercial aquatic environment, the I-Cleaner 200D is ideally suited for pools up to 50m in length. With its twin robots working in complete harmony, the 200D cuts the cleaning time of the 200 series in half. With the I-Cleaner in your pool, your customers will be enjoying a cleaner, safer swim, while you enjoy the savings.

### Power and precision

The powerful twin drive motors give you exceptional maneuverability and climbing capability. The twin water pumps provide a filtration rate of over 600 litres per minute. Combine this with four large intake gates, two high capacity filter bags and systematic programming, the I-Cleaner 200D will economically and efficiently clean your pool and improve the quality of your water. With the added advantage of a hand held, full function remote control, you can even "target clean" problem areas immediately.

### Value for money

If you are considering investing in a robotic pool cleaner, don't you deserve the whole package? All robots in the I-Cleaner range come standard with the remote control for targeted cleaning, twin drive motors suitable for all pool shapes, and a powerful water pump for outstanding climbing capability. The sponge wheels are suitable for all pool surfaces and a caddy makes for easy transportation and storage. To top it off the I-Cleaner comes with a floor only option for that "quick clean" when you need the pool cleaned in a hurry.

### DIY Servicing

The savings don't end with the purchase price. The 200D is designed for DIY servicing. Using only basic tools from your tool kit, order the parts over the phone and perform the maintenance yourself.

### Safety

The I-Cleaner by ICH Roboter complies with Australian and New Zealand electrical standards.
