

The **BECSys2** water chemistry controller is a reliable and easy-to-use alternative to chemical dosing by hand. Hand dosing chemicals by even the most competent and experienced operator can't respond to changes in demand quickly enough to maintain optimal water chemistry as bather load changes throughout the day.

With a **BECSys2** chemicals will only be fed as needed in response to actual demand, which reduces wasted chemicals while at the same time maintaining optimal water quality 24/7.

Quality is designed and manufactured into every **BECSys2**, assuring years of reliable service. The BECSys2 is suitable for a wide variety of applications including hotels, condos, HOAs and fountains.

Benefits you can rely on!

- ✓ 24/7 water chemistry control
- ✓ Easy to learn, operate, and maintain
- ✓ Commercial-grade sensors and machined flow cell
- ✓ 2 year electronics / 2 year sensor warranty
- ✓ Designed and manufactured in the USA
- ✓ Factory-trained service and support

Features that matter

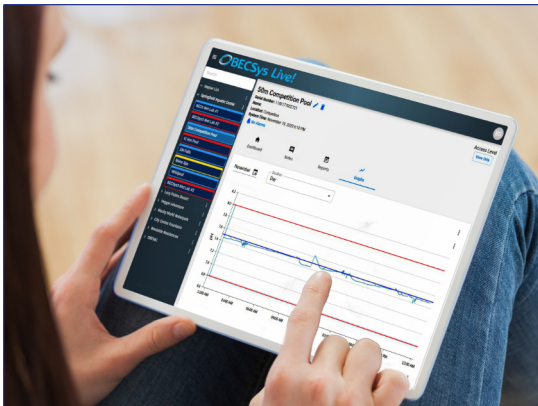

Although it's easy to learn and operate, the BECSys2 has features that make operation and maintenance staff more productive

- One-touch Set Point and Calibration access
- Dual Set Point Booster mode
- Visual Feed and Alarm indicators
- Multi-level password protection prevents unauthorized access

Safety First!

The BECSys2 includes safety features that protect swimmers and mitigate the liability of pool operation

- Sample stream flow switch
- Flow restored chemical feed delay
- Feed Limit timers
- Visual alarm indicator
- High voltage safety shield

Stay Connected

Staffs today are busier than ever. Adding a **BECSys RCM** Remote Communications Module to the BECSys2 boosts the productivity of operation and maintenance staff

- Email and/or text message alarm notifications
- Use BECSys *Live* for 24/7 monitoring and control
- Password-protected remote parameter changes
- Historical data logging & graphing
- Run reports summarizing key performance metrics

You're in great hands!

BECS Technology has been designing and manufacturing the world's most reliable and innovative water chemistry controllers for over 30 years. We take pride in developing aquatics solutions that stand the test of time and are easy to use with features and capabilities that bring real value to our customers and their facilities.

Yet even the best equipment requires competent support to reach its full potential. BECSys distributors have been factory-trained and authorized to provide everything you'll need to take full advantage of all the benefits of your BECSys controller through the warranty period and beyond.

With a BECSys, you're in great hands!
