

# WAVEBREAKER

# Wavebreaker Racing Lane Dividers

The Wavebreaker by Coombes Aquatics Ltd (CAL) is the latest development in racing lane technology. Made from UV and chlorine stabilised polypropylene to ensure longevity in the harsh commercial swimming pool environment.

Each lane is made up of a series of 110mm diameter discs with a recessed donut float between, ensuring a seamless wave breaking action across the entire length of the racing lane. A 3mm 316 grade stainless steel wire is used to string the discs together, with 316 grade S-hook and CAL turnbuckle tensioner for attaching the racing lane to lane rope anchors. Or upgrade to a ratchet tensioner, available upon request.

Designed by swimmers with swimmers in mind

With a slight curvature in the external profile of each disc, the Wavebreaker lane is designed to minimise the risk of damage to bathers when coming into contact with the racing lane. This curved finish to the Wavebreaker discs also ensures that the racing lanes are gentle on your other pool equipment, such as thermal pool blankets, and prevents lanes from catching on the pool edge when removing them from the pool.

## Key Features

- UV and chlorine stabilised for durability
- 316 grade stainless steel wire and fittings
- Recessed floats for seamless wave breaking
- CAL turnbuckle tensioner comes standard with all lanes
- Curved profile to reduce damage to bathers and other equipment
- NZ designed and made
- Standard colors are Red, Blue and White with others available upon request

## Wavebreaker Storage Reel

### Easily remove and store your Wavebreakers

Constructed from stainless steel and fitted with high quality braked nylon castors, the Wavebreaker Storage Reel is the ideal accessory to go with your Wavebreaker lane

ropes. The Wavebreaker Storage Reel is also designed to work in conjunction with the CAL autowind unit to enable automation of your Wavebreaker Storage Reel.

### Key Features

- Two sizes available to store either 150m or 200m Wavebreaker lanes
- Powder coated stainless steel frame
- Polished stainless steel reel
- Manual brake to prevent free spinning of storage reel
- High quality braked nylon castors
- Collapsible for freight purposes
- Will work in conjunction with an CAL Autowind Unit for automation
- NZ Made

### Manufacturer and Supplier of...

**COMMERCIAL AND RESIDENTIAL AQUATICS SPECIALISTS** POOL REFURBISHMENT AND MEMBRANE INSTALLATION **POOL WATER DISINFECTION** PUMPING AND FILTRATION **POOL HEATING** THERMAL POOL COVERS **ROBOTIC POOL VACS** CHEMICALS AND TESTING EQUIPMENT **POOL DECK HARDWARE** SAUNA AND STEAM

## Lane Rope Anchors

Coombes Aquatics manufactures a range of stainless steel lane rope anchors. With options suitable for new builds or retro fitting to an existing swimming pool there is a choice for all pools. Our flip out model is a favourite with architects as it provides a functional solution for attaching racing lanes while offering a sleek flat surface when not in use.
