- Available in 18/27/30/36 kw models
- Dimensions 1700 x 1200 x 900 mm
- Suitable for rooms 24m<sup>3</sup> – 75m<sup>3</sup>

# Sauna Cabin Construction

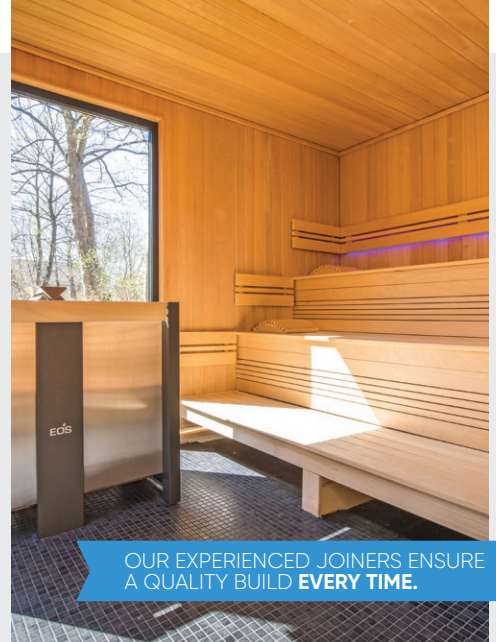

**Coombes Aquatics** offers the option of design and build, where the sauna can be designed to suit an existing space or area and constructed by one of our experienced joiners at each of our branch locations.

## Equipment Design and Supply

Coombes Aquatics offers the option for us to supply you all materials and a drawing for you to construct the sauna yourself.

**Please note:** this option is only available to purchasers who have their own builder to complete the sauna construction, or those who demonstrate the ability and confidence to carry out the construction themselves.

While the construction of the sauna only involves basic building and carpentry skills, it is usually beyond the ability of most "DIY handyman".

# Sauna Accessories

## Sauna Start Up Kit

The Sauna Start Up Kit includes a bucket, ladle, sand timer, thermometer/hydrometer and a bottle of sauna mist. Each of these accessories can be purchased individually from Coombes Aquatics.

## Econ D1 Controller

Electronic control unit with 24hr real time clock. Heating time limitation feature to automatically turn off after a set period of time up to six hours. Digital display of time, temperature and remaining run time. Includes button lock/child lock.

## Econ D3 Controller

Electronic control unit with 24hr real time clock and preselection timer. Control range between 30°C and 115°C. Heating time limitation feature to automatically turn off after a set period of time up to 12 hours. Continuous operation ability is also available.

The latest in German  
steam room technology

# EOS Steam Generators

The new **Steamtech II** from EOS is the latest innovation in high-performance steam generators for commercial and residential steam rooms. For this new model EOS have created a completely new construction with the brilliantly innovative heating principle – indirect water heating by externally placed heating elements. This solves many typical problems arising from bad water quality, such as scale and cracking corrosion.

A range of digital control options are available with either flush mounted onto the housing or remote located controls.

## The Steamtech II unit comes supplied with:

- Steamtech II steam generator
- Multifunctional control steam nozzle 1 ¼ inch
- Container for descaling agent
- Temperature sensor NTC 1000 Ohm / 25°C temp
- Externally placed heating elements
- Reinforced Stainless steel water tank
- 400 V 3N 1 AC, 50 Hz
- Fragrance pump optional

## Technical Information

<b>3kw</b>	room up to 4m <sup>3</sup>
